FREE Project Management

Are you still waiting for headcount to increase? Project timetables falling through the cracks? Could you use some extra help? FREE!

DeVry University's capstone course, Senior Project, requires students to "apply knowledge and mastered skills, including problem-solving techniques and project-management methods, to an applications-oriented project."

You can take advantage of this opportunity to have senior-level computer information systems and network and communications management students do a project for you.

If the idea sounds intriguing, send Dave Branigan an email (david.branigan@aitpchicago.com) to find out how to get a project team working for you.

DeVry University Scholarship Programs

The price of higher education and the related issue of affordability are key concerns for the families of college applicants. DeVry is keenly aware of this issue.

As a response to address affordability and attract new students who would have a strong technology interest, we have developed several new scholarship programs. I have developed the list of DeVry University Scholarships. All of these scholarships are renewable if the student meets the prescribed level of academic achievement. For more information on any of these scholarships please contact Kerrie Flynn at our campus. She can be reached at extension 3582.

- * Dean's Scholarship HS students with an ACT score of 24 or higher must start DeVry within one year of graduation
- * Presidential Scholarship- the top ten Dean's scholars compete for two of these full tuition scholarships after a competitive essay is graded
- * Community Scholar Award- allows every HS in the state to award a \$1,000 scholarship to any student meeting our entrance criteria
- * Community College Scholarship allows any CC grad with a 3.3 CGPA to receive a \$1,500 per term scholarship.

* Community College Community Scholarship allows each regionally accredited two-year college to award a \$1,000 scholarship to any of their graduates meeting our entrance criteria

* Cisco Scholarship grants a graduate of a HS or CC CISCO Academy program to receive 1 \$1,200.00 per term scholarship.

These students will also receive some course credit for the ECT, NSA and NCM programs.

* FIRST Scholarship awards a \$1,00 per tem scholarship to students who competed in a regional FIRST Robotics competition.

* SkillsUSA VICA Scholarship awards a scholarship to HS seniors who place 1st, 2nd, or 3rd in selected competitions.

About the Executives Club of Chicago

Chicago-based programs, with global impact

Ranked as one of the nation's top three business forums by the Washington D.C.-based "Top-Speaking Forums," The Executives' Club of Chicago earns that reputation with effective programs and activities.

Our regular luncheon speakers are the CEOs of Fortune 100 companies. We provide our members -- and all Chicago business -- a seat at the table as key diplomats and international business leaders shape policy for the global economy. International Advisory Council assists in establishing critical strategic alliances in cities throughout the world, helping to ensure that wherever our members travel, they can rely on Executives' Club to connect with viable business prospects and partners, to monitor trends, and to gain access to the executives and diplomats who drive the global economy.

Chicago Programs: Club members convene for ten luncheon meetings yearly to hear nationally known CEOs, politicians and policy-makers. Luncheons provide an ideal forum for members to develop business contacts and entertain clients. Our 9 Committees and 4 Special Interest Groups sponsor 30 special briefings on business issues throughout the year.

Washington, D.C.: Executive Leadership Briefings bring Executives' Club delegations together with senior government officials for off-the-record meetings on trade and economic issues.

International: Since 1990, when the Club's first Executive Leadership Mission visited the former Soviet Union and Finland, the Executives' Club has conducted 4 international missions to Belgium, Germany, Hungary and Poland (1992), to the People's Republic of China and Hong Kong (1994) and to Paris, Brussels, Berlin and Prague to meet with senior officials of the European Commission, the European Parliament and senior officials in the public and private sector (1995). Led by Governor Edgar and Executives' Club President Kaarina Koskenalusta, this most recent mission identified a wide range of trade, joint venture and investment opportunities available in these countries for our members in the European market place of 350 million people.

Networking opportunities: Committees and Special Interest Groups

With our membership growing each year, it's sometimes difficult to meet those Executives' Club members who can most positively impact your business. To facilitate networking among our members, the Club has established 13 dynamic committees and special interest groups. These committees develop programs/briefings that focus on specific topics and provide a forum for all Club members with the opportunity to meet and network with other members who share their special interests. In addition, committee members take responsibility for nominating and screening new Club members who will keep our organization vital and enhance the value of Executives' Club membership for all.

Committee members serve by appointment of the Club's Chairman. Active participation (a minimum of 2 general meetings and two briefings per year) is critical to the effectiveness and impact of these committees. If you wish to be considered for a committee appointment, please contact the Club office
